WEEKLY COMPILATION OF

PRESIDENTIAL DOCUMENTS

Published every Monday by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, the *Weekly Compilation of Presidential Documents* contains statements, messages, and other Presidential materials released by the White House during the preceding week.

The *Weekly Compilation of Presidential Documents* is published pursuant to the authority contained in the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (37 FR 23607; 1 CFR Part 10).

Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The *Weekly Compilation of Presidential Documents* will be furnished by mail to subscribers for $15.00 per year ($15.00 additional for mailing first class; $8.50 additional for foreign handling), payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The charge for a single copy is 50 cents.

There are no restrictions on the republication of material appearing in the *Weekly Compilation of Presidential Documents*.

Energy Emergency in Florida

Memorandum From the President.
July 6, 1979

Memorandum for the Administrator of the Environmental Protection Agency

Based on a request submitted to me by the Governor of the State of Florida to extend my June 12, 1979 determination that a regional energy emergency continues to exist in the State of Florida of such severity that a temporary suspension of certain air pollution control regulations which apply to fossil-fuel fired electric generating plants under the Florida Air Quality Implementation Plan may be necessary, and that other means of responding to the energy emergency may be inadequate, I hereby extend that determination from July 5, 1979, to and including October 15, 1979. This extension is limited by the same conditions as my original determination and is expanded to include any necessary temporary suspension of sulfur dioxide as well as opacity and particulate requirements.

If, during the extension, I find that a regional energy emergency no longer exists in Florida, I will direct that this extension be rescinded, and that all suspension orders issued by the Governor be terminated on the day of that rescission. Please continue to work with State officials to monitor carefully the residual oil supply in Florida and to inform me if the emergency should cease to exist. You will continue to retain full authority to disapprove temporary suspension of regulations in Florida and to exercise your emergency powers authority under Section 303 of the Clean Air Act, when and if necessary. It is important to keep suspensions to an absolute minimum since Section 110(f) of the Clean Air Act limits each suspension to a maximum duration of 120 days.

While my determination permits the temporary suspension of certain emission limiting requirements, it in no way permits the suspension of any national ambient primary or secondary air quality standard. Protection of these national health and welfare protective standards is consistent with Governor Graham's petition, and I commend him for his past restraint in using the authority to suspend some air pollution requirements. (This determination shall be published in the FEDERAL REGISTER.)

JIMMY CARTER

[Filed with the Office of the Federal Register, 2:39 p.m., July 10, 1979]

NOTE: The text of the memorandum was released on July 9.

Saudi Arabian Crude Oil Production

White House Statement. July 9, 1979

The President told Members of the Senate and House at Camp David this morning that he has received a personal commitment from Crown Prince Fahd of Saudi Arabia to increase substantially crude oil production for a significant and specific period of time. Details of production plans will be announced by the Saudi Government in the near future.

The personal message to the President made clear that the Saudi decision is based on their historic friendly relationship with the United States and their commitment to be a dependable supplier of oil to the world.

The President has expressed the appreciation of the American people for this decision. He wishes to emphasize, however, that while the increased production will be helpful in the short term, it does not relieve the United States or other oil-consuming nations of the necessity for firm action to reduce significantly their dependence on imported oil.

NOTE: Deputy Press Secretary Rex Granum read the statement at 11:39 a.m. at the regular news briefing for reporters, held in the Briefing Room at the White House.

President's Council on Physical Fitness and Sports

Appointment of Abbi Fisher as a Member. July 10, 1979

The President today announced the appointment of Abbi Fisher, of South Conway, N.H., as a member of the President's Council on Physical Fitness and Sports.

Fisher, 21, is a member of the U.S. Olympic Ski Team and won the slalom event in the 1978 World Cup. She has been skiing since the age of 3 and racing since 16. She placed second and third in the giant slalom in the 1977 World Cup season and won the slalom event in the 1977 Europa Cup.

Death of Arthur Fiedler

Statement by the President. July 10, 1979

Music lovers everywhere were saddened to learn of the death of Arthur Fiedler, who had a special place in our hearts as the courtly man who introduced millions to the infinite variety and pleasures of music.

The Fourth of July concerts he originated on the banks of the Charles River became a part of our national tradition. He gave us the best loved classics with a joyous mixture of country, jazz, and popular works. He knew how to take music seriously without taking the fun out of it, and he shared that gift with us all.

Rosalynn and I join a nation filled with the grateful recipients of that gift in sending our deepest sympathy to his wife, Ellen Bottomly Fiedler, and the rest of his family.

National Energy Supply Shortage

Message to the Congress on the Implementation of Energy Conservation Contingency Plan No. 2. July 10, 1979

To the Congress of the United States:

Pursuant to the authority vested in me by the Energy Policy and Conservation Act, I have found and proclaimed (copy of the Proclamation is enclosed) that a severe energy supply interruption currently exists with respect to the supply of

imported crude oil and petroleum products and have implemented the authority vested in me to impose emergency building temperature restrictions as set forth in Standby Energy Conservation Contingency Plan No. 2.

The Plan will become effective as of July 16, 1979. A copy of the final Department of Energy regulations which more fully explain the manner for the exercise of the Plan is enclosed.

JIMMY CARTER

The White House,
July 10, 1979.

NOTE: The Department of Energy regulations are printed in the FEDERAL REGISTER of July 5, 1979.

National Energy Supply Shortage

Proclamation 4667. July 10, 1979

By the President of the United States of America

A Proclamation

The Secretary of Energy has advised me that the continued reduction in world crude oil production has resulted in a national energy supply shortage constituting a severe energy supply interruption as defined in Section 3(8) of the Energy Policy and Conservation Act (42 U.S.C. 6202 (8)). The Secretary based his conclusion on the fact that current and projected imports of crude oil and petroleum products, plus available stocks, are not adequate to meet normal demand and that shortages of essential fuels have begun to have a major adverse impact on the economy with the possibility of more severe impacts occurring in the future. Recent shortages of gasoline in some areas of the Nation and the current inadequate levels of heating oil stocks have underscored the seriousness of the situation and demonstrate that action must be taken now to conserve available supplies of petroleum.

On the basis of the Secretary's report, and other information available to me, I hereby find and determine, in accordance with Sections 201(b) and 3(8) of the Energy Policy and Conservation Act (42 U.S.C. 6261(b), 6202(8)), the existence of a national energy supply shortage constituting a severe energy supply interuption, which:

(A) is of significant scope and duration and of an emergency nature;
(B) may cause major adverse impact on national safety or the national economy; and
(C) has resulted from an interruption in the supply of imported petroleum products.

I further find that implementation of the Emergency Building Temperature Restrictions, Energy Conservation Contingency Plan No. 2, is required by the severe energy supply interruption. This Plan was transmitted by me to the Congress on March 1, 1979, and approved by a resolution of each House (S. Res. 122, 125 Cong. Rec. S 5135 (May 2, 1979); H. Res. 209, 125 Cong. Rec. H 3018 May 10, 1979)), which resolutions have been transmitted to me by the Secretary of the Senate and the Clerk of the House. Those resolutions were received by me on May 4 and May 15, 1979, respectively.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, by the authority vested in me by the Constitution and laws of the United States, including Section 201(b) of the Energy Policy and Conservation Act (42 U.S.C. 6261(b)), do hereby proclaim that:

SECTION 1. A severe energy supply interruption, as defined in Section 3(8) of

the Energy Policy and Conservation Act (42 U.S.C. 6202(8)) currently exists with respect to the supply of imported crude oil and petroleum products.

SEC. 2. This finding shall be immediately transmitted to the Congress.

SEC. 3. The provisions of the Emergency Building Temperature Restrictions, Energy Conservation Contingency Plan No. 2 (44 FR 12911 of March 8, 1979), shall become effective as of July 16, 1979.

SEC. 4. In accordance with the provisions of the Plan, the Secretary of Energy is hereby authorized to issue regulations for the purpose of implementing the Energy Conservation Contingency Plan No. 2 and to administer the program in all respects.

IN WITNESS WHEREOF, I have hereunto set my hand this tenth day of July, in the year of our Lord nineteen hundred seventy-nine, and of the Independence of the United States of America the two hundred and fourth.

JIMMY CARTER

[Filed with the Office of the Federal Register, 4:40 p.m., July 10, 1979]

United States Ambassador to Papua New Guinea and the Solomon Islands

Nomination of Harvey J. Feldman. July 11, 1979

The President today announced that he will nominate Harvey J. Feldman, of Miami, Fla., to be Ambassador Extraordinary and Plenipotentiary of the United States to Papua New Guinea and to the Solomon Islands. He would replace Mary S. Olmsted, who is resigning.

Feldman has been Coordinator for Taiwan Affairs at the State Department since 1977.

He was born June 25, 1931, in Brooklyn, N.Y. He received a B.A. (1951) and M.A. (1954) from the University of Chicago.

Feldman joined the Foreign Service in 1954, and served in Hong Kong, Tokyo, Nagoya, and at the State Department. He took language training at the Foreign Service Institute in 1962–63 and then in Taipei, where he also served as a political-military officer. From 1965 to 1970, he was detailed to the U.S. Information Agency in Hong Kong as publication officer, assistant information officer, then cultural affairs officer.

From 1970 to 1973, Feldman was at the State Department as a political officer, then a member of the Planning and Coordinating Staff. From 1973 to 1975, he was Counselor for Political Affairs in Taipei, and from 1975 to 1977, he was Deputy Chief of Mission in Sofia.

Steel Imports

Proclamation 4668. July 11, 1979

MODIFICATION OF TEMPORARY QUANTITATIVE LIMITATIONS ON THE IMPORTATION OF CERTAIN ARTICLES OF STAINLESS STEEL OR ALLOY TOOL STEEL

By the President of the United States of America

A Proclamation

On June 12, 1979, by Proclamation 4665, I proclaimed, pursuant to the Constitution and the statutes of the United States (including section 203 of the Trade Act of 1974 (19 U.S.C. 2253) (the Trade

Act)), an extension for the period of June 14, 1979 through February 13, 1980, of the temporary quantitative limitations imposed by Proclamation 4445, as amended, on the importation into the United States of certain articles of stainless or alloy tool steel provided for in items 923.20 through 923.26, inclusive, of the Tariff Schedules of the United States (TSUS) (19 U.S.C. 1202).

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, in order to assure equitable treatment under Proclamation 4445, as amended, and acting under the authority vested in me by the Constitution and the statutes of the United States, including section 203 of the Trade Act (19 U.S.C. 2253), and in accordance with Article XIX of the General Agreement on Tariffs and Trade (GATT) (61 Stat. (pt. 5) A58; 8 UST (pt. 2) 1786) do proclaim that Subpart A, part 2 of the Appendix to the TSUS is modified as set forth in the Annex to this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand this eleventh day of July, in the year of our Lord nineteen hundred seventy-nine, and of the Independence of the United States of America the two hundred and fourth.

JIMMY CARTER

ANNEX

Subpart A, part 2 of the Appendix to the Tariff Schedules of the United States (19 U.S.C. 1202) is modified—

(a) by redesignating headnote 2(d) as headnote 2(e);

and

(b) by inserting the following new headnote 2(d):

"(d) Adjustments.—If the Special Representative determines that it is necessary or appropriate to assure equitable treatment in a manner consistent with the objective of phasing-out import relief he may:

(1) Allocate or reallocate specific quota quantities to any country or instrumentality subject to restriction (either individually or by inclusion in the "other" country grouping), either on an item by item basis, or for all items; or

(2) Adjust the quota quantities between countries or instrumentalities, among or within items 923.20 through 923.26, inclusive, or among or within restraint periods, provided that any such adjustment does not affect the sum of all quota quantites for all items 923.20 through 923.26, inclusive, for the period June 14, 1979, through February 13, 1980.

Such modifications are to be effective on or after the date of their publication in the FEDERAL REGISTER;".

[Filed with the Office of the Federal Register, 4:27 p.m., July 11, 1979]

Department of Education

Statement on House of Representatives Action Approving the Legislation. July 11, 1979

The department of education legistion approved by the House today will streamline administration of more than 150 Federal education programs, saving tax dollars and cutting redtape. It will also permit better management of the Government's health and human service programs.

The department of education legislation is an important administration priority. It will make a single agency and a single Cabinet official responsible full-time for Federal education programs. It will ensure that programs costing $14 bil-

lion annually receive the high-level management attention and broad public scrutiny they deserve.

I would like to thank Speaker O'Neill and others in the House leadership, Chairman Brooks, and Congressmen Fascell and Horton for their efforts on behalf of this historic legislation. I look forward to early action by the House-Senate conference committee.

United States International Development Cooperation Agency

White House Statement on Congressional Approval of Reorganization Proposals. July 11, 1979

President Carter today expressed his appreciation for the approval given by the Congress of his proposals for reorganizing and strengthening the management of U.S. foreign economic development activities.

Noting that these proposals largely adopted suggestions of the late Senator Hubert Humphrey, the President said he wished to especially thank Chairmen Zablocki and Brooks of the responsible House committees and Chairmen Church and Ribicoff of the Senate committees for their leadership in achieving congressional support for the reorganization.

The President said the administration can now move ahead to establish the International Development Cooperation Agency (IDCA), the centerpiece of his plan to improve the programs and policies affecting the developing nations.

The principal components of the IDCA will be the Agency for International Development, the Overseas Private Investment Corporation, and the proposed Institute for Scientific and Technological Cooperation. The President hopes the Congress soon will complete action to establish this Institute, which will help developing countries create and adapt technologies capable of reducing their enormous problems in such fields as health, food, and energy.

Meeting With Prime Minister Abel Tendekai Muzorewa of Rhodesia

White House Statement. July 11, 1979

President Carter met with Bishop Muzorewa this afternoon because of the President's deep personal commitment to help find a solution for the peaceful transfer of responsible political authority from the white minority to the black majority in Zimbabwe-Rhodesia.

In a frank exchange of views, the President emphasized his sincere desire to see an end to the bitterness and bloodshed in Zimbabwe-Rhodesia. He believes this can be accomplished by the establishment of a broadly based consensus on constitutional procedures and administrative processes which are responsive to the legitimate political aspirations of all the peoples of Zimbabwe-Rhodesia.

The President restated his intention to work closely with the Government of the United Kingdom, which has the primary legal and historic responsibility to bring Zimbabwe-Rhodesia to independence based on full political participation and human rights guarantees for all its citizens. He expressed the hope that the Muzorewa administration would work closely with the United Kingdom in seeking nonmilitary, political means to further this goal.

Skylab

Message to Australian Prime Minister J. Malcolm Fraser. July 11, 1979

I was concerned to learn that fragments of Skylab may have landed in Australia. I am relieved to hear your Government's preliminary assessment that no injuries have resulted. Nevertheless, I have instructed the Department of State to be in touch with your Government immediately and to offer any assistance you may need.

NOTE: Skylab was launched by the National Aeronautics and Space Administration on May 14, 1973. The orbiting spacecraft, weighing approximately 77 tons, was used as a research observatory workshop.

On reentering the Earth's atmosphere, Skylab disintegrated, and about two-thirds of the debris burned up during its descent. The remaining pieces were scattered over the Indian Ocean and Australia in an estimated 100-mile-wide, 4,000-mile-long path.

Combined Federal Campaign

Memorandum From the President. July 12, 1979

Memorandum for Heads of Departments and Agencies

It is a pleasure to announce The Honorable Bob Bergland, Secretary of Agriculture, has agreed to serve as Chairman of the Combined Federal Campaign for the National Capital Area this fall.

The solicitation efforts of the United Way of the National Capital Area, the National Health Agencies, and the International Service Agencies are combined into a single drive to meet the needs of more than 150 local, national, and international health, welfare, and social service agencies in this one drive.

These organizations deserve our wholehearted support, to enable them to provide assistance to our neighbors and friends who have special needs. By working through the Combined Federal Campaign we can provide the voluntary agencies a beacon of hope for providing the needed assistance.

The Combined Federal Campaign offers a unique opportunity through a once a year gift—a pledge made easier through the use of voluntary payroll deductions—for Federal personnel to help persons in our community, in our Nation, and in overseas lands. I am confident Mr. Bergland will have your wholehearted support in this endeavor. Additionally, I hope you will commend the campaign with its payroll deduction feature to Federal employees and military personnel in your organization.

I request that you serve personally as Chairman of the Combined Federal Campaign in your organization and appoint one of your top assistants as your Vice Chairman. Please advise Mr. Bergland of the person you designate as your Vice Chairman.

JIMMY CARTER

Combined Federal Campaign

Memorandum From the President. July 12, 1979

Memorandum for Federal Employees and Military Personnel

Federal government employees traditionally have responded generously in aiding those less fortunate than ourselves. Particularly noteworthy have been the tremendous compassion and support we have demonstrated through our contributions to the Combined Federal Campaign.

Once again, this yearly opportunity to support the services of voluntary health and welfare agencies, including the

United Way, The American Red Cross, National Health Agencies and International Service Agencies, by participating in the Combined Federal Campaign is upon us. These agencies help make our community a better place in which to live; they alleviate pain and suffering, and seek cures from dreaded diseases; they bring hope to those in overseas lands, and reinforce a sense of security in the aged, infirm, and handicapped.

In the spirit of neighborliness, we will continue our tradition of generosity and concern for others through contributions to the Combined Federal Campaign. I am confident of your support.

JIMMY CARTER

Digest of Other White House Announcements

The following listing includes the President's public schedule and other items of general interest announced by the White House Press Office and not included elsewhere in this issue.

July 7–July 13

The President remained at Camp David, Md., during the week for a series of discussions and meetings on a broad range of domestic issues, particularly energy and the economy. Participants in the discussions included, at various times, Members of Congress, current and former Federal, State, and local government officials, members of the White House staff, representatives of civic, religious, and labor organizations, businessmen, civil rights leaders, and university officials.

July 12

In the evening, the President went by helicopter to Pittsburgh, Pa., to discuss a broad range of issues with about a dozen private citizens. He then returned to Camp David.

July 13

In the morning, the President went by helicopter to Martinsburg, W. Va., to discuss a broad range of issues with a group of 17 private citizens. He then returned to Camp David.

NOMINATIONS SUBMITTED TO THE SENATE

The following list does not include promotions of members of the Uniformed Services, nominations to the Service Academies, or nominations of Foreign Service officers.

Submitted July 12, 1979

HARVEY J. FELDMAN, of Florida, a Foreign Service officer of Class two, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to Papua New Guinea and to serve concurrently and without additional compensation as Ambassador Extraordinary and Plenipotentiary of the United States of America to Solomon Islands.

J. JEROME FARRIS, of Washington, to be United States Circuit Judge for the Ninth Circuit, vice a new position created by P.L. 95–486, approved October 20, 1978.

BETTY BINNS FLETCHER, of Washington, to be United States Circuit Judge for the Ninth Circuit, vice a new position created by P.L. 95–486, approved October 20, 1978.

JAMES C. PAINE, of Florida, to be United States District Judge for the Southern District of Florida, vice a new position created by P.L. 95–486, approved October 20, 1978.

BENJAMIN F. GIBSON, of Michigan, to be United States District Judge for the Western District of Michigan, vice a new position created by P.L. 95–486, approved October 20, 1978.

DOUGLAS W. HILLMAN, of Michigan, to be United States District Judge for the Western District of Michigan, vice a new position created by P.L. 95–486, approved October 20, 1978.

CHECKLIST OF WHITE HOUSE PRESS RELEASES

The following listing contains releases of the White House Press Office which are not included in this issue.

Released July 11, 1979

Announcement: nomination of Benjamin F. Gibson to be United States District Judge for the Western District of Michigan

Announcement: nomination of J. Jerome Farris to be United States Circuit Judge for the Ninth Circuit

Announcement: nomination of Betty Binns Fletcher to be United States Circuit Judge for the Ninth Circuit

Announcement: nomination of Douglas W. Hillman to be United States District Judge for the Western District of Michigan

Announcement: nomination of James C. Paine to be United States District Judge for the Southern District of Florida

Fact sheet: reorganization of U.S. foreign assistance activities

CHECKLIST—Continued

Released July 12, 1979

News conference: on the administration's mid-session review for the fiscal year 1980 budget, and other economic and budgetary issues—by James T. McIntyre, Jr., Director of the Office of Management and Budget, Lyle E. Gramley, member of the Council of Economic Advisers, and Daniel H. Brill, Assistant Secretary of Treasury

ACTS APPROVED BY THE PRESIDENT

Approved July 7, 1979

S. 984 ---------- Public Law 96–31
An act to provide the Secretary of Agriculture with authority to reduce marketing penalties for peanuts.

Approved July 10, 1979

S.J. Res. 14 ---------- Public Law 96–32
A joint resolution to amend the Public Health Service Act and related health laws to correct printing and other technical errors.
